- Verbena 'bonarienses 'Vanity'

Who are the Master Gardeners?

The Master Gardener Program is a corps of trained volunteers who work in partnership with their county Cooperative Extension to expand educational outreach throughout the community by providing home gardeners with research-based information. Master Gardeners assist with gardening projects in their communities, teach classes and workshops, plant and maintain demonstration gardens, provide information and soil pH testing at events, and address gardening questions.

How to Become a Master Gardener Volunteer

CCE Master Gardener instructors provide a hybrid of online and hands-on training for new volunteers through a comprehensive series of garden-based topics and related fields. Volunteers work with CCE educators to provide outreach education and programs to respective county constituents. For details about upcoming training in Schoharie and Otsego Counties, visit

<https://CCESchoharie-Otsego.org/MG-Training>

Contact our

Master Gardener Helplines

Do you have a question about growing a vegetable garden? Wish you knew the name of that pesky weed that keeps popping up in your flower bed? Wonder what that funny looking insect is that is crawling across your shoe?

Find the answer, by calling our Master Gardener Volunteer Helplines.

Schoharie County
